19 - 22 February, 2003

Banff Conference Center Banff, Alberta, Canada

TOPICS:

Transport and Kinetic Models of Laser Produced Plasmas
Interaction Physics with Long and Short Laser Pulses
Novel Approaches to Thomson Scattering

SPONSORED BY:

Institute for Laser Science and Applications (LLNL, Livermore)*
Theoretical Physics Institute (Univ. of Alberta, Edmonton)

ORGANIZING COMMITTEE:

Hector Baldis (PAT/LLNL)
Siegfried Glenzer (ICF/LLNL)
Wojciech Rozmus (Univ. of Alberta)
Denis Pesme (Centre de Physique Theorique)

CONFERENCE SECRETARY:

Josie Morgado
